HOW TO PLAY:

WAR

WAR IS A TWO-PERSON GAME PLAYED WITH A DECK OF 52 CARDS. THE GOAL OF THE GAME IS TO BE THE FIRST PLAYER TO WIN ALL 52 CARDS.

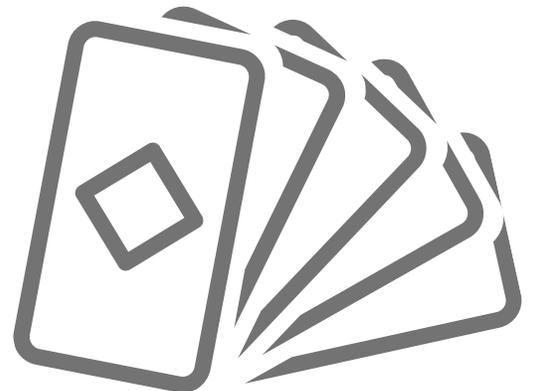

INSTRUCTIONS

- 1** Start by shuffling the deck to make sure that cards are evenly dispersed. After shuffling, you will evenly divide the deck so that each player has 26 cards. When dealing out cards to each player, deal one card at a time to each player and place cards face down. When all 52 cards have been dealt, each player can place their stack of cards face down in front of them to begin.
- 2** To start the game, both players will flip over the first card on the top of their deck at the same time. Whichever player reveals the card with the higher number or higher rank takes both cards and adds them to the bottom of their stack of cards.
- 3** If both players flip over the same value card, it is time for a war. Both players will then flip over an additional card and whoever flips over the higher number of ranking card, wins all 4 cards to be added to the bottom of their stack. If players flip the same cards again, they will both flip over another card, and the player with the highest card will take all 6 cards.
- 4** Continue the game until one player wins all 52 cards.

REMINDER

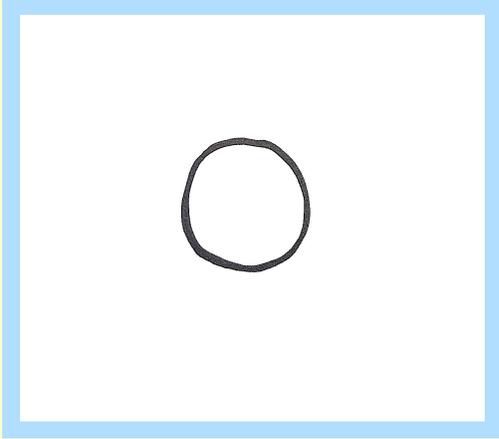

The ranking of cards from highest to lowest is:

- Ace
- King
- Queen
- Jack
